URBAN DISTRICT COUNCIL OF FAREHAM

TELEPHONE :
Fareham 2431

Public Health Department,
130 West Street,
Fareham, Hants.

July, 1973

TO THE CHAIRMAN AND COUNCILLORS OF THE URBAN DISTRICT COUNCIL
OF FAREHAM

Mr. Chairman, Ladies and Gentlemen,

I have the honour to submit the Annual Report of the Public Health Department for 1972.

While the population continues to grow in numbers the increase in 1972 has been the lowest since 1961. The Registrar General's estimated population 84,890 showed an increase of 1,320 and the natural increase or the excess of births over deaths was 499. The number of births registered 1,244 gave a birth rate of 14.7 per 1,000 population which was just lower than that of 14.8 per 1,000 population for England and Wales.

The crude death rate of 8.8 per 1,000 population still remained well below that of 12.1 per 1,000 population for England and Wales. The infant mortality rate of 14.0 per 1,000 live births was also lower than the figure of 17.0 per 1,000 live births for England and Wales. Diseases of the heart and blood vessels were responsible for 373 deaths and of that number 195 were attributed to coronary disease. Malignant diseases caused 173 deaths with cancer of the lung and bronchus giving rise to 42 deaths.

The year showed a low incidence of infectious diseases. This resulted from the use of the very effective vaccines now available against most of the communicable diseases. Both scarlet fever and infective hepatitis were more prevalent than usual and so far vaccines against those two diseases are not available.

I should like to express my gratitude to Mr. D.E.C. Hayward, Chief Public Health Inspector, both for the details of the work carried out by the Public Health Inspectors and for his very valuable assistance at all times.

In conclusion, I wish to thank the members of the Council, in particular the Chairman and members of the Health Committee, for their keen interest in the Department, the Chief Officers for their co-operation, and all the staff of this Department for their high standard of work throughout the year.

I have the honour to be,

Mr. Chairman, Ladies and Gentlemen,

Your obedient servant,

A handwritten signature in dark ink, appearing to read 'M. Browley'. The signature is fluid and cursive, with a large initial 'M' and a long, sweeping tail that extends to the right.

Medical Officer of Health

PUBLIC HEALTH OFFICERS OF THE AUTHORITY

Medical Officer of Health:

M. CROWLEY, M.B., B.Ch., B.A.O., D.P.H.

Chief Public Health Inspector:

*D.E.C. HAYWARD, M.A.P.H.I., D.S.A.A.

Additional Public Health Inspectors:

*W.B. FORD, M.R.S.H.

°A.J. PALMER, M.A.P.H.I.

*N.G. RHODES, M.A.P.H.I.

*+L.W. RIVETT, M.A.P.H.I.

*A.W.P. ROBINSON.

*Meat and other Foods Certificate.

+Smoke Inspector's Certificate.

°Diploma.

Pupil Public Health Inspector:

MISS. E.J. FOSTER.

Authorised Meat Inspectors:

R.K. BLAND.

A.J. COLES.

B. DAY.

D.J. EDWARDS.

A. PILGRAM.

A. SPENCER.

Rodent Control:

A.S. TURNER.

R.W. SMITH.

Senior Clerk:

MISS. J. DOODY (To March, 1972).

MRS. B.A. TURNER (From April, 1972).

Clerks:

MISS. F.R. HUNT.

MRS. L. MASON (From May to August, 1972).

MISS. S. BAKER (From August, 1972).

Section 1

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area of District - 18,352 acres.

Population -

Registrar-General's estimate of population for 1972 - 84,890

Number of Inhabited Houses at 31st December, 1972 - 27,700

Rateable Value at 1st April, 1972 - £3,477,976

Sum Represented by a Penny Rate (1972-73) - £35,100 (approx)

SUMMARY OF VITAL STATISTICS FOR THE YEAR (1) LIVE AND STILL BIRTHS, Etc.

Total Deaths from Special Causes, 1972

					Male	Female	Total
					-----	-----	-----
LIVE BIRTHS:							
Total registered	647	597	1,244
Legitimate	620	569	1,189
Illegitimate	27	28	55
STILL BIRTHS:							
Total registered	5	8	13
Legitimate	5	6	11
Illegitimate	---	2	2
Total Live and Still Births			652	605	1,257
DEATHS:							
Total registered	381	364	745
Infants under 1 year (total)			10	8	18
Infants under 1 year (legitimate)		9	8	17
Infants under 1 year (illegitimate)			...		1	---	1
Neonatal deaths - under 4 weeks							
(legitimate)					7	6	13
Neonatal deaths - under 4 weeks							
(illegitimate)					---	---	---
Early Neonatal deaths - under 1 week							
(legitimate)					4	6	10
Early Neonatal deaths - under 1 week							
(illegitimate)					---	---	---
MATERNAL MORTALITY:							
Pregnancy, childbirth and abortion	...				---	---	---
DEATHS FROM SPECIAL CAUSES:							
Pulmonary Tuberculosis		1	2	3
Other forms of Tuberculosis			1	---	1
Malignant Neoplasms		84	89	173
Pneumonia	19	18	37
Whooping Cough	---	---	---
Measles	---	---	---
Diphtheria	---	---	---
Poliomyelitis	---	---	---

Section II

GENERAL PROVISIONS OF HEALTH SERVICES

IN THE AREA

(a) Laboratory Facilities.

Full facilities are available through the Public Health Laboratory Service for the bacteriological examination of water supplies and other investigations. Chemical examinations are done by arrangement with the Public Analyst, Portsmouth.

(b) Ambulance Facilities.

Requests for ambulance transport in the area are dealt with by the Central Ambulance Control, Winchester. (Telephone Winchester 61644).

The County Council has an agreement with the City of Portsmouth whereby all calls for the removal of infectious cases are passed to the latter authority's ambulance service for attention.

(c) Clinics.

The following services in connection with Tuberculosis, Maternity and Child Welfare, Orthopaedics, etc., are provided by the County Council and the Regional Hospital Board at clinics and treatment centres in the area:

(1) Tuberculosis.

Clinics are held at Queen Alexandra Hospital, Cosham, Portsmouth. Telephone Cosham 79451.

(2) Venereal Disease.

PORTSMOUTH.

St. Mary's Hospital,
(Special Clinic),
Milton Road,
Portsmouth.
(Tel. Portsmouth 22331)

Monday	2.00 p.m. to 7.00 p.m.
Tuesday	9.30 a.m. to 12 noon. 4.30 p.m. to 7.00 p.m.
Wednesday	2.00 p.m. to 7.00 p.m.
Thursday	9.30 a.m. to 12 noon. 4.30 p.m. to 7.00 p.m.
Friday	9.30 a.m. to 12 noon. 2.00 p.m. to 7.00 p.m.

SOUTHAMPTON.

Special Treatment Centre, Opposite Chest Clinic, Royal South Hants Hospital, 44 & 46 Bullar Street, Southampton. (Tel. Southampton 23021)	Monday to Friday	10.00 a.m. to 7.00 p.m.
--	---------------------	-------------------------

(3) Maternity and Child Welfare.

County Council Health Clinic, off West Street, Fareham.	Friday	10.00 a.m. to 12 noon. 2.00 p.m. to 4.00 p.m.
--	--------	--

Hill Park Clinic, 45 Highlands Road, Fareham.	Tuesday	10.00 a.m. to 12 noon. 2.00 p.m. to 4.00 p.m.
	Thursday	10.00 a.m. to 12 noon.

West End Gospel Hall, St. Annes Grove, Fareham.	Monday	2.00 p.m. to 4.00 p.m.
--	--------	------------------------

Community Centre, Locks Heath.	Second and Fourth Tuesday	2.00 p.m. to 4.00 p.m.
-----------------------------------	------------------------------	------------------------

British Legion Hall, Park Gate.	Thursday	2.00 p.m. to 4.00 p.m.
------------------------------------	----------	------------------------

Sarisbury Congregational Church Hall, Brook Lane, Sarisbury.	Second and Fourth Monday	2.00 p.m. to 4.00 p.m.
---	-----------------------------	------------------------

Methodist Church Hall, Castle Street, Portchester.	Thursday	10.00 a.m. to 12 noon. 2.00 p.m. to 4.00 p.m.
---	----------	--

Crofton Community Centre, Stubbington Lane, Stubbington.	Thursday	10.00 a.m. to 12 noon. 2.00 p.m. to 4.00 p.m.
---	----------	--

Community Centre, Titchfield.	First and Third Monday	2.00 p.m. to 4.00 p.m.
----------------------------------	---------------------------	------------------------

Victory Hall, Warsash.	First and Third Monday	2.00 p.m. to 4.00 p.m.
---------------------------	---------------------------	------------------------

(4) Ante-Natal Relaxation and Mothercraft Classes.

County Council Health Clinic, off West Street, Fareham.	Monday	2.00 p.m.
Hill Park Clinic, 45 Highlands Road, Fareham.	Monday	2.00 p.m.
Methodist Church Hall, Castle Street, Portchester.	Tuesday	2.00 p.m.
Community Centre, Locks Heath.	Wednesday	2.00 p.m.
Assembly Hall, off West Street, Fareham.	Thursday	2.00 p.m.
Crofton Community Centre, Stubbington Lane, Stubbington.	Tuesday	2.00 p.m.
Salisbury Congregational Church Hall, Brook Lane, Salisbury.	Friday	2.00 p.m.

Application made usually through Midwife or Health Visitor attached to General Practitioner.

Institutional Provisions for Mothers and Children
(Provided by Regional Hospital Board):

Blake Maternity Home, Gosport.
Blackbrook House, Fareham.
Saint Mary's Hospital, Portsmouth.

(5) School Clinics.

County Council Health Clinic, off West Street, Fareham.	First and Third Friday mornings. Medical examination, by appointment.
--	--

(6) Child Guidance.

The Gables, Spring Garden Lane, Gosport.	Attendance by appointment only.
Holbrook County Junior School, Fareham Road, Gosport.	Attendance by appointment only.

(7) Dental Clinics.

County Council Health Clinic, off West Street, Fareham.	Attendance by appointment from County Dental Officer.
Wallisdean County Junior School, Wallisdean Avenue, Fareham.	Attendance by appointment from County Dental Officer.

(8) Eye Clinic.

St. Christopher's Hospital, Wickham Road, Fareham.	Tuesday and Thursday afternoons, by appointment.
---	---

(9) Physiotherapy.

St. Christopher's Hospital,
Wickham Road, Fareham.

Every day.

(10) Skin Clinic.

St. Christopher's Hospital,
Wickham Road, Fareham.

Alternate Saturday mornings.

(11) Physical Medicine Clinic.

St. Christopher's Hospital,
Wickham Road, Fareham.

Monday afternoons.

(12) Speech Therapy.

County Council Health Clinic,
off West Street, Fareham.

Monday mornings,
Thursday all day.

Hill Park Clinic,
45 Highlands Road, Fareham.

Thursday afternoon,
by appointment.

(d) Vaccination.

Vaccination against Smallpox is carried out by General Medical Practitioners and at some Child Welfare Clinics free of charge under the National Health Services Act, 1946.

~~NOTE: Parents are advised to have their children vaccinated preferably in the second year of life.~~

(e) Hospitals.

Apart from the Geriatric Unit at St. Christopher's Hospital, there are no general hospitals in the Urban District. At present, hospital services are available at Portsmouth, Southampton and Winchester; the nearest is at Cosham five miles away. Infectious disease cases are sent to hospitals for infectious diseases at Portsmouth and Southampton. Most of the cases requiring hospital confinements are sent to Blackbrook Maternity Home, Fareham, but quite a number from the district are admitted to Saint Mary's Hospital, Portsmouth.

Special hospital facilities are provided for Smallpox.

Treatment for Tuberculosis is available at Bishopstoke and Southampton Chest Hospital.

(f) Homes for the Aged.

The Hampshire County Council provide residential accommodation for forty eight aged persons at Uplands, Park Lane, Fareham.

Section 111

SANITARY CONDITIONS OF THE AREA

1. Water Supply.

The Urban District is supplied by two large water companies - the Portsmouth Water Company and the Southampton Waterworks. The number of houses and the approximate number of persons supplied in the different Wards are as follows:-

- (a) Portsmouth Water Company - supplying Crofton
3,213 houses - 9,293 population
- (b) Portsmouth Water Company - supplying Fareham
12,487 houses - 37,698 population
- (c) Portsmouth Water Company - supplying Portchester
4,688 houses - 14,173 population
- (d) Southampton Waterworks - supplying Locks Heath,
Sarisbury, Titchfield and Warsash
6,215 houses - 24,860 population

The Portsmouth Water Company take frequent water samples for both bacteriological and chemical analysis at their laboratory, and this Department also takes regular weekly samples of water for bacteriological examination. The Laboratory reports show that a very high standard of bacteriological purity in the water is maintained.

2. Drainage and Sewerage.

At long last something is likely to be done to relieve the overloaded sewers and sewage works. The scheme prepared by the Consulting Engineers is in two parts and Part One is due to start early in 1973. The restrictions on new buildings still continue.

3. Refuse Collection.

The refuse collection service is satisfactory. Modern, high-capacity, compression type collection vehicles are used which are almost dustless in operation.

4. Sanitary Inspections of the Urban District

Table (1) - Inspections for all Purposes and Notices served

Premises, Etc.	Inspections	Re-Visits	Notices

6. SHOPS ACT, 1950.

Nineteen visits were made to new shops or to premises where a change of occupier had occurred. Stocks of the relevant notices are retained in the Department for sale to shop occupiers.

7. OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963.

REGISTRATIONS :-

There were forty two new registrations during the year making the total number of premises registered under the Act six hundred and one of which four hundred and fifty were inspected.

NOTIFICATIONS :-

Seventeen accidents were reported. Seven of these happened while handling goods and resulted in strained muscles and minor injuries. Five resulted in cut fingers and thumbs when using knives or slicing machines, in one case the guard had been removed by the operator. The remainder were caused by falls of one kind or another except for one case of scalding when making the tea.

8. CARAVAN SITES AND CONTROL OF DEVELOPMENT ACT, 1960.

Seven licences were in operation during the year in respect of sites in the area, permitting the siting of one hundred and forty nine residential caravans and two hundred and forty four holiday caravans.

Twenty-two individual site licences were in operation, two individual site licences expired during the year. There are, in addition, a number of caravans in the area which are, by virtue of exemptions provided in the Act, not subject to planning permission or site licence.

Dibles Road, Warsash. The municipal site opened in August and its complement of forty residential standings were quickly occupied.

9. PET ANIMALS ACT, 1951 AND ANIMAL BOARDING ESTABLISHMENTS ACT, 1963.

During the year seven licences were issued under the Pet Animals Act. Ten licences were renewed under the Animal Boarding Establishments Act.

10. RIDING ESTABLISHMENTS ACT, 1964.

One establishment was licensed under this Act during the year.

Section IV

HOUSING

Inspections of Houses during the year:-

Number inspected under Public Health Acts and Housing Acts for defects including drainage.

Initial Inspections	648
Re-inspections	1,245

Action under Statutory Powers:-

(1) Public Health Acts

- (a) Number of Houses in respect of which action was taken to secure cleansing and/or repair of drainage systems.

Informal	80
Statutory	1

(2) Housing Acts

- (a) Number of Houses in respect of which notices were served requiring repairs.

Informal	27
Statutory	4

- (b) Number of Houses rendered fit after service of notice 27

(3) (a) Number of Houses made subject to Closing Orders 4

No. of Closing Orders determined 3

No. of Persons displaced 11

No. of Families displaced 6

- (b) No. of Houses made subject to Demolition Orders 2

No. of Demolition Orders revoked --

No. of Persons displaced 3

No. of Families displaced 1

No. of Houses demolished 1

(c) No. of Houses in Clearance Areas declared	--
No. of Houses in Clearance Areas confirmed	--
No. of Houses affected by modification to or exclusion from Clearance Orders	--
No. of Persons displaced	21
No. of Families displaced	9
No. of Houses demolished	19

Housing Act, 1969

Certain provisions of the Housing Act, 1969 relate to the change from controlled to regulated tenancies of rented private dwellings. The procedure calls for the issue by the Local Authority of Qualification Certificates, making necessary physical inspections to determine the existence of standard amenities and fitness of the property for human habitation.

In this connection one hundred and ten initial visits and one hundred and nineteen re-inspections were made.

HOUSING PROGRESS TO 31st DECEMBER, 1972

Site	Dwellings in Scheme	Completed to 31/12/71	Completed during 1972	Under Construct- ion at 31/12/72

PRIVATE HOUSING:-

The number of private houses completed in 1972 was 509.

Section V

INSPECTION AND SUPERVISION OF FOOD

(1) MILK SUPPLY

MILK (Special Designation) REGULATIONS, 1963

The following licences were in operation during the year :-

Dealers' (Pasteurisers') Licences	1
Dealers' (Pre-packed Milk) Licences	49

SAMPLING

Samples were taken regularly from milk dealers and the one dairy to ensure that the milk was satisfactory, as follows :-

Pasteurised Milk	105
Sterilised Milk	1
Untreated Milk	--
Ultra Heat treated Milk	5

Three samples of Pasteurised Milk failed the methylene blue test.

LIQUID EGG (Pasteurisation) REGULATIONS, 1963

There are no egg pasteurising plants within the Urban District and no samples were taken. Liquid egg from the two egg-packing stations are used for animal feeding only.

(2) FOOD AND DRUGS ACT, 1955

Sections 2 and 6 and the Labelling of Food Order, 1963

The following samples were submitted for analysis :-

<u>FOODS:</u>				<u>DRUGS:</u>			
Alcoholic Beverages	2	Medicine and Drugs	...	6	
Non Alcoholic Beverages	3			—	
Cereal and Starch Products	4		Total	6	
Fat and Oils	1			—	
Fish and Fish Products	17				
Flavourings and Colourings	2				
Flour and Flour Confectionery	3				
Fruit	1				
Meat and Meat Products	12	<u>MILK:</u>			
Milk and Milk Products	5	Channel Island	...	10	
Poultry and Poultry Products	1	Ordinary	...	59	
Sauces and Pickles	2			—	
Slimming, Remedial, Diabetic Foods	10		Total	69	
Spices, Herbs, Condiments	2			—	
Sugar and Sugar Confectionery	7				
Vegetables	7				
Pesticide Residue Survey							
(Lamb, Herrings, Celery)	3				
			—				
		Total	82				
			—				

The Public Analyst criticised the labelling of several samples. Instant Fruit Tea contained no tea solids. Low Sugar Strawberry Jam contained an undeclared potassium salt and Dietade Apricots displayed an inaccurate carbohydrate declaration. Vitaminised Tablets for protection against sunburn provided large doses of Vitamin A which some medical opinion viewed as dangerous particularly in pregnancy. Reference was made to the Pharmaceutical Society and the Committee for Safety of Medicines but it became obvious that medical opinions were in conflict.

The usual crop of foreign bodies in various types of food were examined and prosecutions were made for a piece of plastic in a steak and kidney pie, glass in gravy mix, wire in sausages, insect faeces and webbing in marzipan sweets, a fly in a chicken and bacon pie, a piece of metal in another meat pie, cigarette filter tip in prunes and a metal ring in canned fruit. Several other cases of mouldy foods were also successfully prosecuted. In most cases the manufacturers explained the care taken to avoid such occurrences but mistakes and accidents are inevitable and these complaints will continue. A prosecution for snails in blackcurrant jam was lost on a technical point but another local authority made contact with us shortly afterwards and eventually successfully prosecuted the firm.

One complainant produced cauliflower heads which had turned bright yellow on cooking but this was found to be through natural causes. Another resident was alarmed when the Sunday joint and roast potatoes turned bright blue. He suspected the new cooker which had many failings apparently, but analysis proved the presence of indelible ink, possibly from the butchers pencil or ballpen.

SECTION 9

The following visits were made for the purpose of examining food :-

Butchers	2
Grocers	29
Others	29
			<hr/>
			60
			<hr/>

and the undermentioned quantities of food were condemned :-

	tons.	cwts.	qtrs.	lb.	ozs.

	1	4	3	5	12

Oranges 1,048 cases

SECTION 16 - REGISTERED PREMISES.

ICE CREAM :-

Five applications were made during the year for registration of premises for the sale and storage of ice cream. The total number of premises registered is two hundred and twelve.

Forty-one visits were made for sampling purposes and one hundred and one samples obtained with the following results :-

Grade 1	78
Grade 11	6
Grade 111	4
Grade 1V	13

Grades 1 and 11 are satisfactory results. The retailers of the Grades 111 and 1V samples were advised on handling and storage and the registration authorities notified.

Two samples of ice-lollies were satisfactory.

(3) EDUCATIONAL ACTIVITY.

Talks on food hygiene and allied subjects were given during the year and the annual invitation by the Council to young voters provided the opportunity to display the work of the department in a small exhibition.

MEAT INSPECTION

The Senior Meat Inspector reports as follows :-

The total number of animals slaughtered at Funtley Abattoir during 1972 showed a slight decrease over the previous year, but with more beef being exported to the continent the number of cattle slaughtered showed approximately a twenty per cent increase.

The slaughterhouse was granted its licence to export, but some structural alterations to the slaughtering lines were still outstanding at the end of the year. Even with the improvements brought about by electro-mechanical hoists and rails there is still far too much man handling and over-loading of the pig line during slaughtering and dressing operations. With this line capable of rates of two hundred and fifty pigs per hour complete mechanisation must be completed if the premises are to comply with hygiene regulations.

Chilling and hanging facilities for a maximum daily kill have been inadequate for a number of years, with the result that carcasses are often hung overnight in the pre-cooling area and slaughterhall. If the internal heat of carcasses is to be dispersed rapidly and bacterial growth controlled it is essential that carcasses should be removed to chilling rooms as quickly as possible.

It has been necessary to draw the attention of the firm to the bad practice of operators moving from the dirty end to the clean end in line dressing of animals, as this can lead to contamination of the finished carcasses. Rapid throughputs and high standards of hygiene can be maintained provided the labour force is employed in the correct manner with cleansing and sterilizing equipment at convenient points.

Staff engaged on meat inspection have had to cover a slaughtering week of fifty five hours with additional overtime work at the week-end. Despite these long hours of operation a hundred per cent inspection has been maintained.

Reviewing statistics of animal disease as revealed in the table appended, it is gratifying to record a downward trend over the past years, but the old problems of fluke in cattle and abscesses in pigs still remain.

TABLE 1. - Statistical Summary of Inspections at Fareham Abattoir - 1.1.72 to 31.12.72

	Cattle other than Cows	(a) Cows	Calves	Sheep	Pigs	Total

2. DIPHTHERIA IMMUNISATION.

No confirmed case of Diphtheria was notified here in 1972. The antigen against Diphtheria is combined with that against Whooping Cough and Tetanus and the age recommended for immunisation is six months. Parents are invited to take their children to their nearest clinic or, if they prefer, to their family doctor. In both cases the service can be carried out free of charge under the National Health Service.

Immunisation was carried out during 1972 at the Child Welfare Clinics at Fareham, Hill Park, Locks Heath, Portchester, Sarisbury, Stubbington and Warsash. Immunisation clinics giving reinoculations were also held at eight local authority schools.

In all, 2,240 children were immunised during the year, as follows:

Children born in years:	Primary <u>Immunisation</u>	<u>Reinoculation</u>

7. Control of Communicative Diseases.

Investigations were made by the staff into cases of infectious diseases and reports were made dealing with the possible sources of infection, the supervision of contacts and the disinfection of premises:

Number of visits made during the year ... 112

Section V11

NATIONAL ASSISTANCE ACTS, 1948 and 1951

Section 47

No statutory action was necessary under the above Acts during the year.

Section V111

PREVENTION OF DAMAGE BY PESTS ACT, 1949

Sewer Maintenance.

Testing of the public sewers in the Western Wards was carried out between the 8th and 16th May, 1972. One hundred and seventy-two manholes were tested, three with positive results.

These positive areas were treated in May and were again baited in November with negative results.

The following table shows the work done (other than sewer maintenance) by the
Rodent Operatives during the year.

	Non Agricultural		Agricultural		Totals
	Initial	Revisits	Initial	Revisits	
1. Inspections and revisits: (a) Notification (b) Routine	848 132	3,445 318	5 13	32 1	4,330 464
2. Number of properties infested: (a) By rats - minor (b) By rats - major (c) By mice	604 --- 237	--- --- ---	9 --- 3	--- --- ---	613 --- 240
3. (a) Infestations treated by Local Authority (b) Infestations treated by occupier or others	797 44	--- ---	9 3	--- ---	806 47
4. Notices served: (a) Treatment (b) Proofing	--- ---	--- ---	--- ---	--- ---	--- ---
